Get your friends, colleagues and anyone else to pledge for you, since you are doing for a great cause !!

This is HCI's flagship project cosponsored by Grand Challenges Canada. The target is to offer EI therapy (Physio, Occupational, Speech, Special ed., life skills), assessments and follow ups for 700 children with delayed development and conditions such as Cerebral Palsy, from 800 rural villages in Thirunelveli Dist., South India. This project will be implemented by Amar Seva Sangam, india. This project is being funded by Govt. of Canada on a matching basis. The uniqueness of this initiative is that this has also become a premier research project in this area with the cooperation and involvement of researchers from University of Toronto and Indian Universities. The results of the research will be published in major international journals.

If you can not join us, please get pledges from your family, friends and colleagues..
