Early Intervention Project Updates

We are very happy and pleased to inform that the EI project we initiated 4 years ago is a big success and we have the support from **Grand Challenges Canada - arm of Govt. of Canada** to run this project. **All your donations will be doubled** with the matching grant from Canada until 2020.

**Dr. Dominique Visits Amar Seva Sangam -
December 2017**

Dr. Dominique McMahon, coordinator of this liaison between us and GCC, visited Amar Seva Sangam and stayed there for a few days to assess the implementation and progress of this project. **She was thoroughly impressed with both the aspects and further she commented that ASSA is doing an exemplary job. She works with other similar organizations throughout the world, but yet to come across one with such a comprehensive program of Education, Medical Treatment, Rehabilitation, Vocational Training and Job placements for all enrolled in various programs at no charge to the recipients.**

ASSA has created a highly effective model for EI that can be implemented all over India and GCC's vision is to do just that. Tamil Nadu Govt., has approved 6 centres across TN and ASSA is working with Central Govt. of India for opening more centres across India.
